Origin of Negro Slavery

Mr. Bancroft, in the first volume of his History of the United States, gives an account of the early traffic of the Europeans in slaves. In the middle ages the Venetians purchased white men and Christians and ... sold them to the Saracens in Sicily and Spain. In England the Anglo Saxon ... sold their servants as slaves to foreigners. The Portuguese first imported negro slaves from Western Africa into Europe in 1442. Spain soon engaged in the traffic, and negro slaves abounded in its marts ... that kingdom. After America was discovered the natives of Hispaniola were imported into Spain and made slaves. ... [illegible] ... the Indians ... transported ... West Indies. Columbus himself sent ... Indians ... that they might be publicly sold at Seville. The practice of selling North American Indians into foreign bondage continued for nearly two centuries. Negro slavery was first introduced into America by Spanish bondholders who emigrated with their negroes. A royal edict of Spain authorized negro slavery in America in 1503. King Ferdinand himself sent from Seville fifty slaves to labor in the mines. In 1511 the direct traffic in slaves between Africa and Hispaniola was enjoined by a royal ordinance. Las Casas, who had seen the Indians vanish away like dew before the cruelties of the Spaniards, suggested the expedient that the negroes, who alone could endure severe toils, might be still further employed. This was in 1517. The mistaken benevolence of Las Casas extended the slave trade which had been previously established.

Sir John Hawkins was the first English man that engaged in the slave trade. In 1562 he transported a large cargo of Africans to Hispaniola. In 1567 another expedition was prepared and Queen Elizabeth prepared and shared in the traffic. Hawkins in one of his expeditions set fire to an African city and out of 8,000 inhabitants succeeded seizing 250. James Smith of Boston and Thos. Keyser first brought upon the Colonies the guilt of participating in the African slave trade. In 1645 they imported a cargo of negroes from Africa. Throughout Massachusetts the cry of justice was raised against them as malefactors and murderers; the guilty men were committed for their offence and the representatives of the people ordered the negroes to be restored to their native country at the public charge. At the latter period there were both Indian and negro slaves in Massachusetts. In 1620 a Dutch ship entered James River and landed twenty negroes for sale. This is the sad epoch of the introduction of negro slavery into Virginia. For many years the Dutch were principally concerned in the slave trade in the market of Virginia.

Postal Arrangements.—No country on the globe is distressed with so badly conducted postal arrangements as the United States. We are entirely unique in this respect, and are the laughing stock for other peoples. In October last, the Postoffice Department determined upon sending the California mails overland instead of by steamer. Want of transportation between the two ends of the railroad effectually blocked that enterprise, collecting an immense amount of mail matter at the western terminus of the Union Pacific road, and it had to be loaded on teams to be carted nearly six hundred miles over the plains. The non arrival of those mails worked great loss to newsdealers in this city, all of whom have been put seriously out of pocket. Finding that the overland principle failed to work, the Postmaster General has been compelled to undo what he did and return to steamer transportation until the Pacific Railroad can do the business. That officer no doubt desired to confer a favor on the people of this coast, but it was certainly unwise to make the attempt just as winter was about to commence, and with such a gap to traverse in coaches. Arrangements have now been made with the Pacific Mail Steamship Company to convey all documents and such other matter as may be found necessary, while the overland mail service will be performed by Wells, Fargo & Co. between the termini of the Central and Union Railway Companies.—*S. F. Commercial Herald.*

A Domestic Story.—An editor says: "An aunt of ours concluded to try the effect of a pleasant smile and a kind word upon her husband when he returned from his work. She had read how a home should be pleasant and the wife should always meet the husband with a joyful smile. The success she had is best given in the shape of dialogue:

[Enter husband, almost exhausted and very hungry, withal; throws his hat on the floor and drops heavily into a seat. Wife, preparing tea, looks up with a smile and is so glad to see him.]

Wife—Well, my dear, it is so pleasant to have you here at mealtime. [A long smile.]

Husband—Yes, I suppose so.

Wife—How has your business prospered to-day? [Another smile.]

Husband—About so-so.

Wife—Come, my dear, supper is ready; let me draw your chair. [Another smile.]

Husband (gruffly)—I am too tired too stir; wait till I warm my feet.

Wife—Do as you choose, my dear. [Another sweet smile.]

Husband—[Looking at her] ... [illegible] ... what in thunder you are grinning at.

Aunt sighed and relinquished her sweet smiles from that date. Uncle was not one of the romantic sort, and didn't understand such things.

The Suez Canal.—It is expected that the Suez canal will soon be opened for vessels of the largest size. Its depth is 26 feet, its width from 180 to 300 feet. Its cost will be about $80,000,000, and it will shorten the navigation between Europe and India by about one half. It belongs to a French joint stock company. Its construction is due mainly to the genius, energy and persistence of Mr. Ferdinand de Lesseps, who, as a grand son of the Marquis de Lafayette, has a special claim upon the regard of Americans. Much of the excavation has been done by ... and where heavy masonry has been ... opposite to guard the canal against the influx of sand from the Mediterranean, vast blocks of artificial stone have been manufactured for the purpose of sand and hydraulic lime. About 20,000 Europeans have been employed on the work and are still doing ... along the line. A vast number of Arabs have also worked at it irregularly. It has lately been visited by General Charles W. Darling, Engineer in Chief of the State of New York, who speaks of the enterprise with admiration, and regards it as certain to be successful.

A Slight Mistake.—There is a magistrate in a town in Indiana named Helser. A clergyman in the same place was called upon by a young couple not long since, who wished him to join them in the holy bonds of matrimony. He asked the bridegroom (a soldier by the way) for his marriage license. The man in blue responded that he had been engaged to the girl ... years and thought that would do. Clergyman thought not, and remarked as the speediest way to obtain one, "You had better take your girl and go to Helser."

"You can go to hell yourself," retorted the angry veteran.

And seizing the bride by the arm he dragged her from the house, wondering what manner of a profane minister he had met with.

A Literal Turn of Mind

... [illegible] ... a fog in the ... [illegible]

[illegible] ... people who persist ... [illegible] ... the true saying ...

Of such a ... [illegible] ... He replied ... [illegible] ... The ... replied the ... I should immediately knock you down.

"My son," said an anxious father, "what makes you chew that nasty tobacco?" Now the son was a very literal sort of person, and, declining to consider the question in the spirit in which it was asked, replied: "To get the juice out of it, sir."

A lady was once conversing with a sailor who had suffered shipwreck, and as she took great pleasure in the analyzation of the feelings and emotions, she asked him compassionately: "How did you feel, my dear man, when the cold waves broke over you?" But the seaman knew nothing of metaphysics, and answered simply: "Wet, ma'am, very wet."

A small child being asked by a Sunday school teacher, "What did the Israelites do after they had crossed the Red Sea?" answered, "I don't know, ma'am, but I guess they dried themselves."

Queer answers are very often received by grown people who talk to children, for the reason that the latter have not yet become accustomed to the subtleties and figurative meanings and roundabout ways of words, and therefore look at things very practically. "Sam," said a ... mother to her darling boy, "do you know what the difference is between the body and the soul? The soul, my child, is what you love with; the body carries you about. This is your body (touching the boy's shoulders and arms), but there is something deeper in. You can feel it now. What is it?" "Oh, I know," said he, with a flash of intelligence in his eyes, "that is my flannel shirt."

A passive verb, said a teacher, is expressive of the nature of receiving an action, as "Peter is beaten." "Now, what did Peter do?" "Well, I don't know," said the scholar deliberating, "unless he hollered."

A youth who was being reprimanded for playing marbles on Sunday, was asked, "Do you know where little boys go who play marbles on Sunday?" He had not been sufficiently taught in regard to a future state and answered quite innocently, "Oh, yes. Some on 'em goes to the common and some on 'em goes down to the river."

An unexpected bit of information is sometimes elicited by this literal understanding of questions—as when a Sabbath School teacher was attempting to teach a very small boy the meaning of "wages" in the passage "The wages of sin is death," and asked him, "What does your father get on Saturday night?" "Drunk, ma'am," answered the boy without hesitation.

A lecturer in Portland, Maine, or somewhere else, was explaining to a little girl how a lobster cast its shell when it had outgrown it. Said he: "What do you do when you have outgrown your clothes? You cast them off, do you not?" "Oh, no," replied the little one, "we let out the tucks."

Again, a teacher was explaining to a little girl the meaning of the word cuticle. "What is that all over my face and hands?" Said he. "It's freckles, sir," answered the little cherub.

This same literal turn of mind is sometimes used intentionally and perhaps a little maliciously, and thus become the property of wits instead of blunders. Thus we hear of a very polite and impressive gentleman who said to a little boy in the street: "Boy, may I inquire where R—'s drug store is?" "Certainly, sir," said the boy, very respectfully. "Well, sir," said the gentleman after waiting awhile, "where is it?" "I have not the least idea, your honor," said the urchin. There was another boy who accosted by an ascetic middle-aged lady with "Boy, I want to go to Dover street." "Well, ma'am," said the boy, "why don't you go there, then?"—*Galaxy.*

Tribute to Printers.—The chaplain of the New Hampshire Penitentiary, in reviewing the events of his life since his connection with that institution, pays the following compliment to journeymen printers:

"I have the happiness to number among my friends many printers, but though it may seem to imply either a lack of ability on the part of the minister, or the want of the qualities that are necessary in order to appreciate good preaching on the other part, yet I will reveal the fact that I have never succeeded well with the 'Press.' For the nine long years, with all the inducements offered, not one of that trade has connected himself with my congregation, and I do not think a man could be found ... [illegible] ... up a ... of type ..." [illegible] ... only remarking that this ... the accidental ... [illegible] ... that the employment ... prevailing ... [illegible] ... printers are ... from the large mass ... which corruptions ... and spread. In all these respects this class are exposed. It is evident, we think, that the employment has an elevated tendency and is favorable to intellectual and moral improvement.

Got Into Bad Company.—Charles A. Sumner, of Nevada, who bears in many points of character a resemblance to the crazy but noble hearted hidalgo of Cervantes' immortal romance, and who while stumping Nevada for Grant has been engaged in the somewhat Quixotic enterprise of attempting to defeat Bill Stewart, was visited by a Nemesis recently in the shape of the redoubtable Nickerson. On the evening preceding the election, Sumner was announced to speak at ... Hall, and a stupid ... Democratic paper announced that Nickerson would also speak. And so after Sumner had "analyzed" Stewart for something over three hours and had finished his speech, there were loud calls for Nickerson, and that worthy appeared on the stage, to the disgusted Sumner's ... the next day Sumner and Nickerson were coupled together in the papers, to the unspeakable disgust of the former. We pine and Stewart was revenged.

A Wedding Mistake.—A gentleman of New Haven ordered a wedding suit—among which was a white satin vest. On the bridal evening, as the clergyman was leaving, the door, the gentleman took ... [illegible] ... his vest and slipped gracefully into the parson's hand what he supposed was a X ... which he had put there for that purpose. The ceremony ... [illegible] ... when the bridegroom ... Insanity

[illegible] the Journal [illegible] of insanity [illegible] population of all the States and Territories [illegible] some existing causes [illegible] of insanity existing in all the [illegible] these articles apply equally in Oregon.

A large portion of the population of the Pacific coast have been drawn hither by high hopes of speedy fortune. The few have been fortune's favorites, the multitude have been disappointed. This very common adversity has contributed largely to swell the ranks of the insane. Dissipation has followed disappointment; multitudes have been hurried to death, and insanity has seized many who survive. Culture and discipline of the intellect tends powerfully to fortify the mind against insanity, and of necessity these things have been sadly wanting. The longing for home which has been so generally prevalent on the Pacific coast has often been known to give rise to settled melancholy and disturb the reason. A large proportion of the population has consisted of unmarried men, and it is a well known fact that celibacy is more conducive to insanity than the married state. That the vice of intemperance is a frequent cause of insanity is verified by almost daily observation. A fixed religious faith, we copy from the *Journal*, and the regular attendance on public worship steady the mind and preserve it from some perturbations which tend to insanity. Very many of our people who were once careful in these respects threw aside all religious ties when they left the old home, and have since drifted around with whatsoever current might befal —especially with the current of "Spiritualism," which inclines in the direction of the insane asylum. Whether this last observation is just or not, it is certain that a large proportion of the cases of insanity come from excitement attendant upon the propagation of various religious isms. But the larger share of them are caused by vices which can only be hinted at, not described, in a piece of writing designed for the public eye.

Diseases of the mind were never before so well understood as at the present day. This, indeed, is true of all diseases to which man is subject. The least erudite physician who applies a recognized system in the practice of his profession has now at his command an amount of recorded knowledge which would have filled the Sydenhams, or even the Mason Goods of a century later, with amazement and delight. The least intelligent are also aware that the investigation of the body in health and disease has thrown a brilliant light on the connection between the mind and its earthly tenement. Long after bodily disease was known to be organic or functional disturbance, mental disease was widely believed to be quite disconnected from the corporeal organs. There was supposed to be something supernatural about it, and of course mental maladies were thought to be beyond the reach of human skill. But the importance of competent medical treatment in such cases is now universally recognized. Many, of course, are incurable, but a large proportion are, by care and skillful treatment, either wholly or partially restored.

THE "NIGGER PARTY."—The Sacramento *Bee* is of opinion that the Democracy have been justly and providentially dealt with. They resolved in their public meetings and conventions that they never would recognize the right of the negro to vote, and what is more, that they never would submit to be governed by those elected by colored suffrage! And in face of all these declarations, what are the frozen facts? Why, their own candidate for President relied upon negro votes to elevate him to that office—that their own party have used every possible influence to obtain negro votes. That they have succeeded in so doing, and that without the negroes the Democracy would scarcely be heard of in the Electoral College! If it were not for the 'nigger' States their candidate would scarcely know that he had been in the field." And the Sacramento *Reporter* and other Democratic organs are boasting that the freedmen, properly appreciating the frankness and truthfulness of the Democracy, went to the polls and cast their votes as a general thing for Seymour and Blair. Good bye, white man's party!

BOURBONS.—The old fogy hardshell Copperhead Democrats never forget any of their old theories or follies. They adopted the idea over fifty years ago that the Union was a mere compact of States. This was absurd, and the war has settled the question the other way beyond all dispute; yet the Bourbon is utterly unable to forget it. These Bourbons may be useful as treasure houses of exploded theories which might otherwise be forgotten, but to attempt to get a new idea into their heads preoccupied by these large acquirements of ignorance is useless. It could only be done by the process of trepanning, and the game is not worth the candle. The great body of the people have recently learned that rebels are not to rule this country, that the citizenship of the negro is to be secured to him, that the national debt is to be paid, and the national honor maintained. The Bourbons do not know these things. They never will. They are now engaged in discussing the Virginia resolutions of '98 and in cyphering out Democratic gains.

THE GRECIAN BEND.—This seems to be a very foolish fashion, but it we is report that the newspaper attacks on it are just about as foolish. They are resulting just as might be expected, not in crushing it, but in advertising and spreading it. The New York papers say that it is impossible to walk down Broadway on a fine afternoon without seeing quite a number of elegant illustrations of it. Even the urchins who stand on the corners selling photographs and pictorial caricatures of it, are of no account. The ladies smile at the caricatures and then determine to adopt the bend. Unless the newspapers, caricaturists and comic song writers desire to see it become universal, they had better let it alone. The true way of looking at a fashion is to regard it as a matter of fate, and let it run its course.

OVERLAND LINE.—The Union Pacific Railroad is now open to Bryan, 860 miles from Omaha. This shortens the time between Omaha and San Francisco to eight days. From Omaha to Bryan the time is forty hours; from Bryan to Salt Lake City thirty-two hours by stage; from Salt Lake City to Wadsworth four days; from Wadsworth to San Francisco by the Central Pacific Railroad one day. From New York to Omaha requires three days, so that the traveler who possesses the needful endurance can now reach San Francisco from New York in eleven days.

House Help or Servants

On the Pacific coast the Chinese are largely employed as house servants, and the scarcity of domestic help is constantly bringing them into employment in this capacity. Throughout all the States the complaint of the scarcity of domestic servants is universal. It extends not only to all the leading cities, but also to the small towns and rural districts. Formerly the latter were well supplied by the native surplus of women arising from the steady emigration of single men to the cities and to the West. But the great increase of industrial establishments has drawn large numbers of women from household service by the better wages thus to be obtained. Another cause of the scarcity of domestic servants arises from the fact that the amount of wealth in the country has increased enormously, and with it there is a corresponding change in the modes of living. More servants are required than formerly. Immigration from Europe does not supply so many as it once did, because a large portion of the immigrants are in better circumstances than those who came over some years ago. They are generally prepared to open a shop, settle on a farm, or go into some other independent business of their own. Therefore the women do not go out to domestic service so generally as formerly. American women, it is well known, are in general extremely averse to engage as domestic servants, and many prefer to drag along a miserable and most precarious existence on the verge of starvation, sewing or toiling in other poorly paid employments, rather than descend to domestic service. In the Pacific States there is even a greater scarcity of females for household servants than in the East, and the Chinese are becoming a main reliance here for help of this kind.

POOR OREGON.—The *Unionist* says: "Last spring Oregon elected Rev J S Smith, a life-long copperhead, to a seat in Congress. That body has a two third Republican majority. The Senate is of the same political complexion. Now, what do the people of this State expect of Mr Smith? What influence will he possess, except with a few mourners for the Lost Cause who, like himself, have been elevated to position by the votes of Pap Price's boys? Poor Oregon! Your fault is grevious one, but grievously will you answer for it." The Roseburg *Ensign*, in an article on the same subject, says: "The State will cast its three votes in the Electoral College with the party, and for the candidates which have been discarded by the American people. Thus we are politically at war with the dominant power in the Government to which we are forced to look for aid and encouragement in the improvements upon which we depend for a development of the resources of our young State. Our Senators are the only medium through which we can now expect to be heard at the National Capital, and we are indebted to our late Democratic Legislature for an effort to destroy their influence and power in the body of which they are members."

"SCUM AND FILTH."—The Albany *Democrat* says: "The leaders of the Radical party will soon throw off the mask and avow their real designs, which are that niggers, kanakas, Chinamen, Indians, and all the rest of the scum and filth of our country shall be enfranchised and vote the Radical ticket." As fast as the "scum and filth" are enfranchised, no matter what the color, they vote Democratic. Witness the action of the newly enfranchised plug ugly whites of New York and the meaner and more degraded part of the negroes at the South. They all voted in common for Seymour and Blair.

THE OCTOBER VOTE.—The following is the official vote of Pennsylvania at the State election held on the 13th of October: Hartranft (Republican), 332,896; Boyle (Democrat) 323,101—Republican majority 9,885. The aggregate vote was 158,927 larger than ever before thrown in the State. The only place where the Democrats gained over the Republicans was in Philadelphia, and this was accomplished by fraud. The Republicans of Pennsylvania in November quadrupled their majority of October.

LEFT TO ITS FATE.—South Carolina gives her vote to Grant and Colfax. The Eugene *Journal* says that Oregon, New York and New Jersey are the only Northern States now mourning by the grave of treason and rebellion, and that this spectacle is made still more sorrowful by the fact that the mother of treason deserted her child in its dying hour and left it a disgrace to itself and a shame to the world.

THE LESSON.—The great lesson taught by the election is that no man who has participated in, sympathized with, or even been suspected of sympathy with the recent rebellion can ever hereafter win favor with the American people.

NEVADA SENATOR.—The Carson *Appeal* says it is a foregone conclusion that Senator Stewart will be re-elected, and that no truer man could be found for the place.

THE OVERTHROW OF TELEGRAPH MONOPOLY IN CALIFORNIA.—The New York *Herald* of October 30th says:

The Western Union Telegraph Company appears destined to have a hard time in California in its attempts to retain a monopoly of the telegraphic business in that State. Some two years ago it purchased all the lines and privileges of the California State Telegraph Company, and supposing that it had secured the entire control of the business of the Pacific, increased its tariff to an unreasonable amount, charging six dollars in gold for a message of ten words from San Francisco to New York. This abuse of power almost put a stop to business and occasioned a loud demand for a competing line, and it was not long before a rival company took the field under the name of the Atlantic and Pacific States Telegraph Company and commenced the construction of new and superior lines. The Western Union applied to the Courts for an injunction to compel the new company to abandon their project, but the law and public sentiment are both against the monopolists, and the rival line is not only certain of gaining a legal victory but is securing advantages over its enemy at every point. The San Jose Railroad Company, it appears, favors the new project, and has directed the Western Union Company to remove their poles from the line of that road, giving the new company the exclusive privilege to run on their route, while the Board of Trade of San Francisco and all the commercial men of California declare in favor of the opposition enterprise and announce their intention to help it forward by their patronage to the extent of their ability.

The success of the new line will be a great benefit to the people of California. A telegraph monopoly is one of the worst monopolies that can exist in any country so far as the general public are concerned. It cramps the facilities for doing business and raises the tariff to a point which places the wires out of reach of all but the wealthy, thus giving an undue advantage to capital. It is also injurious to bona fide stockholders, for it is a well established fact that wherever competition exists and low tariffs are adopted the increase in the business is so great as to add largely to the profits. It is therefore a good thing for the stockholders of the Western Union as well as for the public that the monopoly so obstinately contended for by that company is everywhere being broken up, and the only parties who can be injured by the establishment of competing lines now going on all over the country are those connected with inside rings and combinations formed for the purpose of making money illegitimately through the exclusive control of commercial news.

The schooner *Lulu*, built at Port Madison, was successfully launched on the 13th inst. She is said to be the finest vessel ever built on the coast.

The sugar crop of Louisiana is now set down at 1,200,000 hogsheads. This is a vast increase over the crop of last year. A correspondent of the New Orleans *Picayune*, writing from the parish of Plaquemine, one of the best sugar parishes of the State, says: "From every locality where the sugar cane is cultivated on this coast the yield, both in quantity and quality, promises to be a fit ending to a glorious spring, summer and autumn. The atmospheric conditions of the last few days checked vegetation and are hastening maturation. Last year grinding commenced here on the 2d of November; the probability is that some of our mills will this season be in full operation before the end of the month."

A gentleman while recently visiting the Gettysburg battle field remarked to the guide who accompanied him that the supporters of Seymour and Blair ought to come there. "Ah!" said the guide, "they don't come here; they don't like it. I have not taken ten Democrats over this ground, except the Southerners who have been here to look for their friends' graves. But of Republicans there have been thousands."

A Paris magazine contains the following item: "Madame Lincoln, widow of the late President of the United States, is traveling through France in order to take up her abode at Nice. We do not know if the honors to which she is entitled as the widow of a great citizen have been paid to her in our country. Ah! if Madame Lincoln only were a Japanese! But, unfortunately, everybody is not a Japanese!"

In Oregon Frank Blair has been no detriment to the Democracy. He chased rebels enough out of Missouri to greatly increase the Democratic vote here. It is therefore ungrateful in them to say that Blair has injured the cause of Democracy in Oregon.

The Jacksonville *Reveille*, a Democratic paper, says: "We hope that the Democratic party will ponder deeply the lesson taught on last Tuesday, to wit: that elections are not governed by patriotism, truth and principle." The *Reveille* in its bereavement has told the truth.

The Roseburg paper says: "The carpenters are now busy in finishing the second story of the Roseburg Academy. It will be used by Prof Ferguson as a school room, the lower story not being large enough for the accommodation of all his pupils. Douglas county is not and will not be behind any of her sisters in the State for good schools and academies. Roseburg, Wilbur and Oakland all have good school buildings."

A letter from Belpass (Nov 14th) says: "From fifteen to twenty minutes past 12 o'clock last night there was an uncommon meteoric display at this place. The meteors were most numerous in the East and passed almost due West without a single exception. They were of uncommon size and brilliancy. Was it an effort of Nature to aid in the Republican demonstration at Salem on the same evening? Will some philosopher answer the query?"

An illustration of General Thomas' dignified imperturbability is thus given: About the time of the battle of Franklin, Tenn., a staff officer who had gained some very important information rode at headlong pace with it to General Thomas and hastily rushing to the General's office communicated it to him. The General listened impassively and never said a word when the aide finished, but bowing his head went on with his writing. The officer looked confused and then hurt at the apparent coolness, and was about to retire when General Thomas looked up and said: "Captain, the matter has been attended to; my information is older than yours."

CHARITY.—A large class of people professing to be virtuous on many occasions forget that to be charitable is itself a being is the least virtue a person can possess. It is not always by giving money to the poor or assisting the afflicted that a person should show their charity. A gentle advice is often better than money; for instance: Meeting a person who wishes to purchase a common or fine suit, tell them of any other article in the Clothing line, and also tell him it is the best and that they should go to Kohn & Fishel, you then being certain that at that House they can purchase at the lowest rates and receive good goods, and where the most particular can be satisfied.

CHANCE OF NAME!

MERCADO & CO, SUCCESSORS TO Mercado & Seully, have been obliged for their own protection and the safety of the public, to change the name of their celebrated Bitters to

MERCADO'S

Native California Wine

BITTERS

We subjoin the following affidavit in an injunction suit formerly pending between Mercado & Seully, plaintiffs, and G. A. Simon, defendant:

P. Sainsevain, being duly sworn, says: That the article known as Sainsevain's California Wine Bitters was manufactured by Mercado & Seully about the month of March 1861, without the said Sainsevain Brothers having any concern in the manufacture thereof. The deponent has always known and considered said Mercado & Seully as the Sole Proprietors of the Sainsevain California Wine Bitters.

Notwithstanding the above affidavit the said P. Sainsevain is putting up a compound under the name of Sainsevain's California Wine Bitters, representing it to be the same as our celebrated Bitters, which we have been manufacturing and selling in immense quantities since 1860, and also affixing a nearly similar label to that used on our genuine Wine Bitters. BE NOT DECEIVED. Send for

MERCADO'S

NATIVE CALIFORNIA WINE BITTERS,

And you will obtain the same popular beverage so favorably known since 1860. **Beware of Counterfeits!** Purchasers of our *Wine Bitters* are requested to observe the familiar old yellow label and see that the words, MERCADO & SEULLY, SAN FRANCISCO, are engraved on the Government stamp pasted over the cork of each bottle. This is the only effectual security against the counterfeit imitations.

The Bitter Fruits of Bad Bitters.— Invalid reader, do you know what nine tenths of the bitter compounds you are solicited by the proprietors to accept as universal panaceas are composed of? Give heed for a moment They are manufactured from unpurified alcohol containing a considerable portion of *fusel oil* a poison almost as deadly as prussic acid The basis of the regular tinctures of the Materia Medica is the same No amount of " herbal extracts can overcome the bad tendency of this pernicious element The essence of sound Rye thoroughly rectified is the only stimulant which can be safely used as a component of a Tonic Alterative and anti bilious medicine and HOSTETTER'S STOMACH BITTERS is the only medicinal preparation in the world in which this article is used as an ingredient Hence the extraordinary effects of this great specific It gives strength without producing excitement No other Tonic does this All the ordinary Bitters flush the face and affect the brain. HOSTETTER'S BITTERS diffuse an agreeable calm through the nervous system promote digestion and produce sleep No other tonic so quickly revives the exhausted physical energies restores the appetite and removes the gloom and depression which always accompany the loss of the bodily powers

SUPREME COURT DECISIONS

September Term, 1868.

Philester Lee and Eliza A Lee, Appellants, vs. Thomas S Summers and Eliza Summers, Respondents.—[illegible] delivered the opinion of the court.

This suit is instituted to compel defendants to execute a conveyance of the premises in controversy.

The complaint alleges in substance that on the 23d of October 1850 the defendant, Thomas S Summers being in possession of 640 acres of land known as the Summers claim contracted with plaintiff Philester Lee, that if Lee would purchase the possessory right of a certain land claim which adjoined the Summers claim and was known as the Simons claim and would surrender the east half of said Simons claim to Summers, and pay Summers $500 in five equal yearly payments Summers would surrender to the plaintiff a specific parcel of the Summers claim which parcel is the land in controversy in this suit. That on the same day plaintiff purchased the right of Simons to the Simons claim and paid for it $700 and surrendered the possession of the east half of it to Summers. That plaintiff moved on to the premises in controversy on the 23d of November, 1850 at defendant's request, and has continued to reside on it to the present time.

That said defendant, on the 14th of May 1853 fraudulently proceeded to and did make his final proof at the Land Office in Oregon City, of his continued residence and cultivation of said tract under the donation law, knowing that he had not at any time resided upon or cultivated the same from the 23d day of November, 1850.

The answer after denying these allegations avers that defendant settled on said Summers claim in 1848 and has continued to reside upon and cultivate the same ever since that time, and avers performance of the acts constituting a compliance with the donation law; alleges that the following is a copy of the only agreement ever made by defendant, Thomas, with the plaintiff, viz:

SANTIAM LINN COUNTY, Oct 23 1850

An article of agreement made and entered into by and between Thomas S Summers and Philester Lee, witnesseth: Know all men by these presents, that I, Thomas S Summers of the first part, do agree to let Philester Lee, of the second part, have the undivided half of my claim, including one-half of my Soda Springs for the undivided half of the Simons claim adjoining mine and five hundred dollars in equal annual installments. In testimony whereof we have hereunto set our hands and seals.

THOMAS S SUMMERS [SEAL.]
PHILESTER LEE, [SEAL.]

Witness: RICHARD CHEADLE.

The answer charges that Lee moved on to the premises in dispute in the night time, violently with force, without the consent and against the will of the defendant, and that plaintiff's continuance thereon has been without defendants' consent and against their will. That the land in controversy is a part of defendants' donation claim, and as such has been set off as the wife's part.

The pleadings also show that on the 19th day of May 1853, defendant, Thomas S Summers filed a notification claiming the whole of the Summers claim, and on the 25th of the same month the plaintiff filed a notification claiming that part of it which is the subject of this suit.

The complaint contains the following allegation: "In a contest between said plaintiffs and defendant, as donation land claimants to said tract of land in controversy herein, before the land office at Oregon City and before the Commissioner of the General Land Office at Washington city on appeal from the decision of the land office in Oregon City, the legal title to said tract of land was awarded to said defendant by said Commissioner, by reason of the false and fraudulent statements and proofs made by said defendant before said land office and Commissioner."

The ground of complaint in this suit is substantially that the decision there made was procured by "false and fraudulent statements and proofs made by said defendant before said land office and Commissioner."

The proofs in this case show that on the 23d of October, 1850, the parties conferred together in reference to a sale, surrender or abandonment to Lee of some privilege or interest in the Summers claim, and in their conference it was proposed that the adjoining land known as the "Simons" claim should be obtained by Lee and that Summers should take an interest in that tract. Simons was then temporarily absent in the Atlantic States, and one Carrol claimed to have some charge of the Simons claim, the evidence is conflicting as to Carrol's right or power in the premises. Lee applied to Carrol and Carrol agreed to sell Lee the Simmons claim for $700. Lee accepted the proposition and paid Carrol $700. It does not appear that any papers passed, or that Simons ever received the money. Lee and Summers, on the same day (the 23d of October), came to an agreement as to the terms upon which Lee should obtain an interest in the Summers claim, and they went together to a Mr Cheadle and asked him to reduce the terms of their agreement to writing. Mr Cheadle drew up, and Lee and Summers subscribed, the writing of which a copy is above set forth. According to the evidence this is the last attempt at bargaining that took place between Lee and Summers. Summers testifies that owing to opposition to the plan on the part of Summers' wife, he (Summers) informed Lee, within an hour after signing the paper, that he (Summers) would not consider the agreement binding, nor part with an interest in his claim. Lee went immediately to Marion county and remained there at his former residence a month. On the 23d of November, 1850, he returned with his family and pitched a tent on the premises in controversy. Summers learned this fact about 9 o'clock of that evening and went to Lee's tent and ordered him to leave the premises.

It does not appear that Summers ever had possession of any part of the Simons claim, or that Lee was ever in possession of the east half of it, which in the complaint he alleges he surrendered to Summers. The evidence shows that some months after Lee bargained with Carrol, Simons returned and held possession of the whole Simons claim, 640 acres. But sometime later he abandoned the west half and Lee took and still holds that half.

Simons was a witness and says in evidence on the trial, I took my claim in 1848, improved it in 1849, and sowed grain on it in 1850. In June, 1850 I went to the States for my family, returned in October 1851, to my claim. Lee came to me and wanted me to leave it. He said he had bought it of Carrol and sold part of it to Summers. He said, 'If you don't leave it I can not hold Summers to the trade.' I remained, and am on it yet. I could not hold but half of it, and threw off the west half and Lee took it. I did not authorize Carrol to sell or take possession of my claim. I did not leave my claim in the care of any one. The evidence shows that the first hundred dollars was duly tendered by Lee and refused by Summers.

There is conflicting evidence on many matters of fact alleged in the pleadings. But the conflict is confined principally to matters which the court does not deem of vital importance in the determination of the case.

The plaintiff's possession must be referred to a claim of right asserted by him under the agreement made Oct 23d, 1850, or he must be deemed an intruder without color of right. The former is the more probable conclusion, and one warranted by all the circumstances of the case.

In considering whether such relations exist between Lee and Summers as set aside the patent issued to Summers and hold Summers a trustee under the patent to the use of Lee it is necessary first to ascertain what was the contract made on the 23d of Oct. 1850.

The theory presented in the complaint and urged by appellant's counsel is that the real contract was oral and was made on the same day but before the writing was made, and that the terms of the agreement are not those stated in the writing.

When parties after agreeing to an agreement do deliberately reduce its terms to writing and attest it with their hands the rule is that no evidence of the terms can be received, except the writing itself or secondary evidence of the contents of the writing. The rule [illegible] writing and in regard to contest [illegible] of the writing [illegible] referred to in section 682 [illegible] not in conflict with [illegible] fundamental principle of the law of evidence.

Without examining the question whether the pleadings put in issue any [illegible] the written agreement [illegible] and the parties.

All previous proposals and offers merged in the agreement here assented to by the parties and solemnized by the signatures and seals. Code, sec 682.

This writing cannot be regarded as an executed contract or as evidence of a sale of land, but it is by its terms an agreement to sell. "A mere agreement to sell land does not constitute a license to the purchaser to enter." [illegible] 7 Cow 239; 9 John 35; 3 ib, 424.

It was said in argument that the agreement was of such a character as to estop Summers from setting up title to the land.

But in this case the plaintiff has alleged and proved the very fact which he says the defendant is estopped to plead or prove—that is, that the legal title is in the defendant.

A party who would otherwise be estopped to set up a particular fact may avail himself of the truth when the same fact is shown by his adversary's pleadings and is thus made a part of the record in the case. [illegible]

On the 23d of October 1850, the passage of the donation law was not yet made known to the parties and that is entitled to whatever consideration it may deserve in construing the written agreement by the light of surrounding circumstances and in ascertaining what was the intention of the contracting parties. But when their intentions are ascertained their knowledge or want of knowledge in that respect is entitled to no further consideration.

For the purpose of arriving at their intentions it is just to regard them as intending to deal with what is denominated possessory rights or that species of title which one obtains by an actual possession without any higher right.

For the terms of the contract we are compelled to resort to the written agreement, but in construing it the situation of the parties and their means of knowledge may be properly taken into consideration. But it is not perceived how these circumstances tend to give the agreement the character of an executed contract.

If the parties believed Summers had no title but a possession it may be construed as an agreement that he would abandon his intention of acquiring that particular tract of land, or the half of it, and leave it open to the possession of another and his failure to do so may have been a breach of the contract but in that case he would be answerable in damages and his breach of the agreement could be redressed by a judgment in money for the amount of damages suffered.

But having ascertained what was the argument actually made we are to consider what was the actual condition of the parties at the time.

On the passage of the donation law, which was before the making of this agreement Summers was a settler on, and occupant of the then public lands known as the Summers claim and he was qualified to take as a donee under section 4 of that act.

The act is in words of present grant and actually conveyed to him the legal title of the premises.—Fremont vs United States 17, How 558.

When Congress grants lands in words of present grant, the legal title passes to the grantee. Wilcox vs Jackson, 13 Pet 499; [illegible], 12 S th 244; 12 Pet, 454; 2 Wheat, 198.

The cases just cited show that the title vests immediately in the donee, not the less because the title vests in him conditionally and subject to be defeated by his failure to comply with the law or because the boundaries are yet to be determined by survey.

By section 12 of the Code substantially the same doctrine is declared as the law of this State.

As a necessary consequence of this doctrine the legal title to the premises had vested in Summers when his bargaining with plaintiff, Lee, commenced.

Had this been a suit for the specific performance of a contract and had the appellant proved that he was in a condition to transfer to the defendant an undivided half of the Simons claim according to the terms of the written agreement, and that he did so transfer it the case would involve a consideration of the rights and disabilities of tenants in common claiming and attempting to acquire and hold land under the donation law.

But that is not the case made by the pleadings and the appellants in their argument disclaim any such object. They seem to rely on showing under section 501 of the code, that the patent was wrongfully issued to the defendants.

That section expresses in a condensed manner what has always been the rule and practice of the United States Courts in equity cases concerning public grants of land.

It has always been the practice when a patent has been "wrongfully issued to another" that the party claiming adversely as purchaser or donee of the United States may maintain a suit to have the patent canceled. And that when the party entitled shall have established his claim he will be deemed to have the legal title. And by the doctrine of relation, it will take its beginning from the date of his settlement or from the first of those steps necessarily taken by him in perfecting his title.—*Lessieur vs Price, 12 How 76; Patterson vs Winn 11 Wheat 380, Polk vs Wendall 9 Cranch 87, Bagnell vs Broderick, 13 Pet 436; Starr vs Stark, S. C. U. S., 1868.*

But this right to set aside a patent cannot be exercised by a stranger to the title.

Although the donee may have disqualified himself from taking the grant, one having no right to claim the land as a grant from the government will not be allowed to set up the disability. *Carle vs Burrell, 2, Sneed 62.*

Under the rulings above cited, and under Sec 501 of the Code, the right to resist a patent rests only with the government and those who are in an attitude lawfully to claim under the government.

This subject is ably reviewed by Judge Field in the case of Moore vs Wilkinson 13 Cal. 487, where it is held that a patent cannot be set aside except in favor of "those whose title was at the time, such as to enable them to resist successfully any action of the government respecting it."

If all doubts were removed as to the plaintiff Philester Lee having complied on his part with the written agreement, and if he was an actual purchaser of an undivided half of the Summers claim, that fact and possession shown in this case, if under that agreement, would not place him in an attitude to sue under section 501 of the code, as a person claiming a specific parcel of "real property as a donee of the United States." For if he went into possession under that agreement, went into possession as a tenant in common with an other, thereby admitting himself not in a position to claim as a donee, and consequently not in a condition to attack the patent issued to Summers.

The contract alleged in the pleadings is not supported by the proofs, and this failure can not be deemed a cause of variance under sections 94, 95 and 96 of the code. The weight of evidence is against the conclusion that the plaintiff on his part complied with the contract established by the proof.

And the case does not show the plaintiff to be so connected with the title as to be able to attack the patent.

On each of these grounds the decree of the Circuit Court should be affirmed.

The Post Office at Portland, Oregon, is a depository for mail bags, locks and keys.

Mr Zachariah Wilson, Portland, Oregon, writes,

"It requires an article of real merit and intrinsic value to sustain itself during the stormy ordeal of public experiments. Murray's Improved Magic Oil has stood the test of time and has not been found wanting. The astonishing efficacy that I experienced—its curing me of Chronic Rheumatism and Lumbago, of long standing entitles Dr Murray's Premium Lung and Liver Balsam and Improved Magic Oil to a high rank in the list of remedies for Rheumatism, Lumbago, Ear-ache, Distressing Pains etc."

John English of Howell Prairie, Marion county, Oregon writes:

"I was taken with a severe attack of Rheumatism in my knee joints and extremities accompanied with a severe cough for two months so that I had to use crutches, meanwhile trying all remedies in common use. Your Magic Oil and Balsam gave me instant relief and I was able to walk in four days without crutches. I have not felt any rheumatism since. I have seen your family medicines used with excellent success. I have no hesitancy in saying it is the best preparation for family use ever tried for those complaints. I am now on my way to South America after residing in Oregon twenty years. I must now have two dozens Balsam and two dozens of your Magic Oil, dollar bottles, as I am sure they are the best remedies in Oregon, and I would not be without them in my house and when this package of medicine is exhausted I will send to your office in Portland for a fresh supply.
